RICH MEDICAL CONTENT INCLUDES:

Cath Lab

- Left and Right Cardiac Cath
- Coronary Arteriography
- Aortography
- Carotid, Renal and Lower Extremity Arteriography
- Angioplasty, Atherectomy, Stenting, Thrombolysis, Brachytherapy, Laser Therapy and IVUS of coronary, carotid and peripheral arteries

Nuclear Cardiology

- Exercise and Pharmacologic Stress
- Planar, MUGA and Infarct Avid Studies

Echocardiography

- Transthoracic, pediatric and trans-esophageal echo
- Holter and Event Monitor
- Aorta, Carotid, Renal and Lower Extremities Arterial Ultrasound

Mapped to more than 100 CPT-4 and more than 532 ICD-9 Codes

- Creates a single, complete and easily retrieved electronic note for each procedure
- Comprehensive medical content built by the ProVation® in-house physician team
- Based on physician entries, CPT-4 and ICD-9 codes and CCI edits are automatically generated
- Streamlines ICD-10 transition with timely delivery of new code sets and medical content; will support dual coding functionality
- DocuDiagrams feature allows physicians to create color-coded diagrams that actually generate and populate codes and text within the note
- Instantly and automatically prepares Patient Letters, Referring MD Letters, CC: Letters, Post-Cath Orders and Patient Instructions
- Automatically pulls hemodynamic data, vitals and clinical information, nursing information, medications and devices from hemodynamic systems without duplication of effort or data entry
- ProVation Registry Reporter allows for submission of data to ACC-NCDR database*
- Supports both physician and technician/sonographer workflow and documentation

* Planned release 2011
